

# Your Golden Key to LinkedIn Data

# Problems

Traditional Data Providers  
(e.g. ZoomInfo, Apollo and  
Cognism) have **old & stale** data

Chrome-Based Extensions for  
Scraping (e.g. PhantomBuster) are  
**restrictive** and **risky** getting your  
LinkedIn account banned

LinkedIn has the **best & freshest**  
Contact Data but **risky** and  
**limited** to Scrape Data at Scale  
and you don't get emails
